Version 1.0 | Revit 2015

April 2019

Created by

Duten_WtrSplyFitngsForWshBsnsAndTrghs_R335

File Features

- Multiple Finishes (please see manufacture brochure)
- Multiple Types in File (see below)

Predefined Types

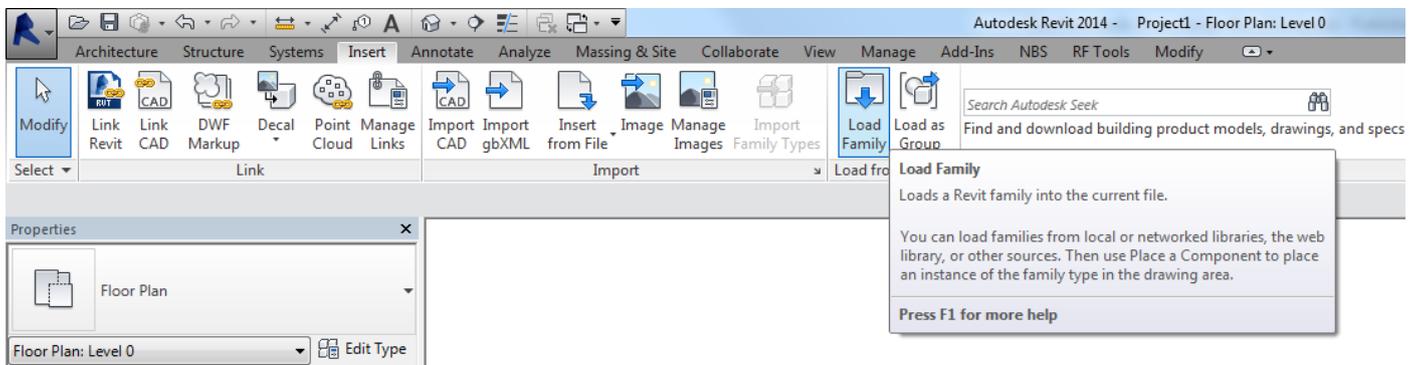

Family Type	Width	Depth	Height
Battery Pack Brushed Stainless Steel	64	195	170
Battery Pack Polished Stainless Steel	64	195	170
Battery Pack Matte Black	64	195	170
Transformer Brushed Stainless Steel	64	195	170
Transformer Polished Stainless Steel	64	195	170
Transformer Matte Black	64	195	170

A simple guide to using your Revit Ready file.

1. LOAD IT

The range can consist of one or more Revit families, these contain predefined types as outlined above in the predefined types and the manufactures brochure.

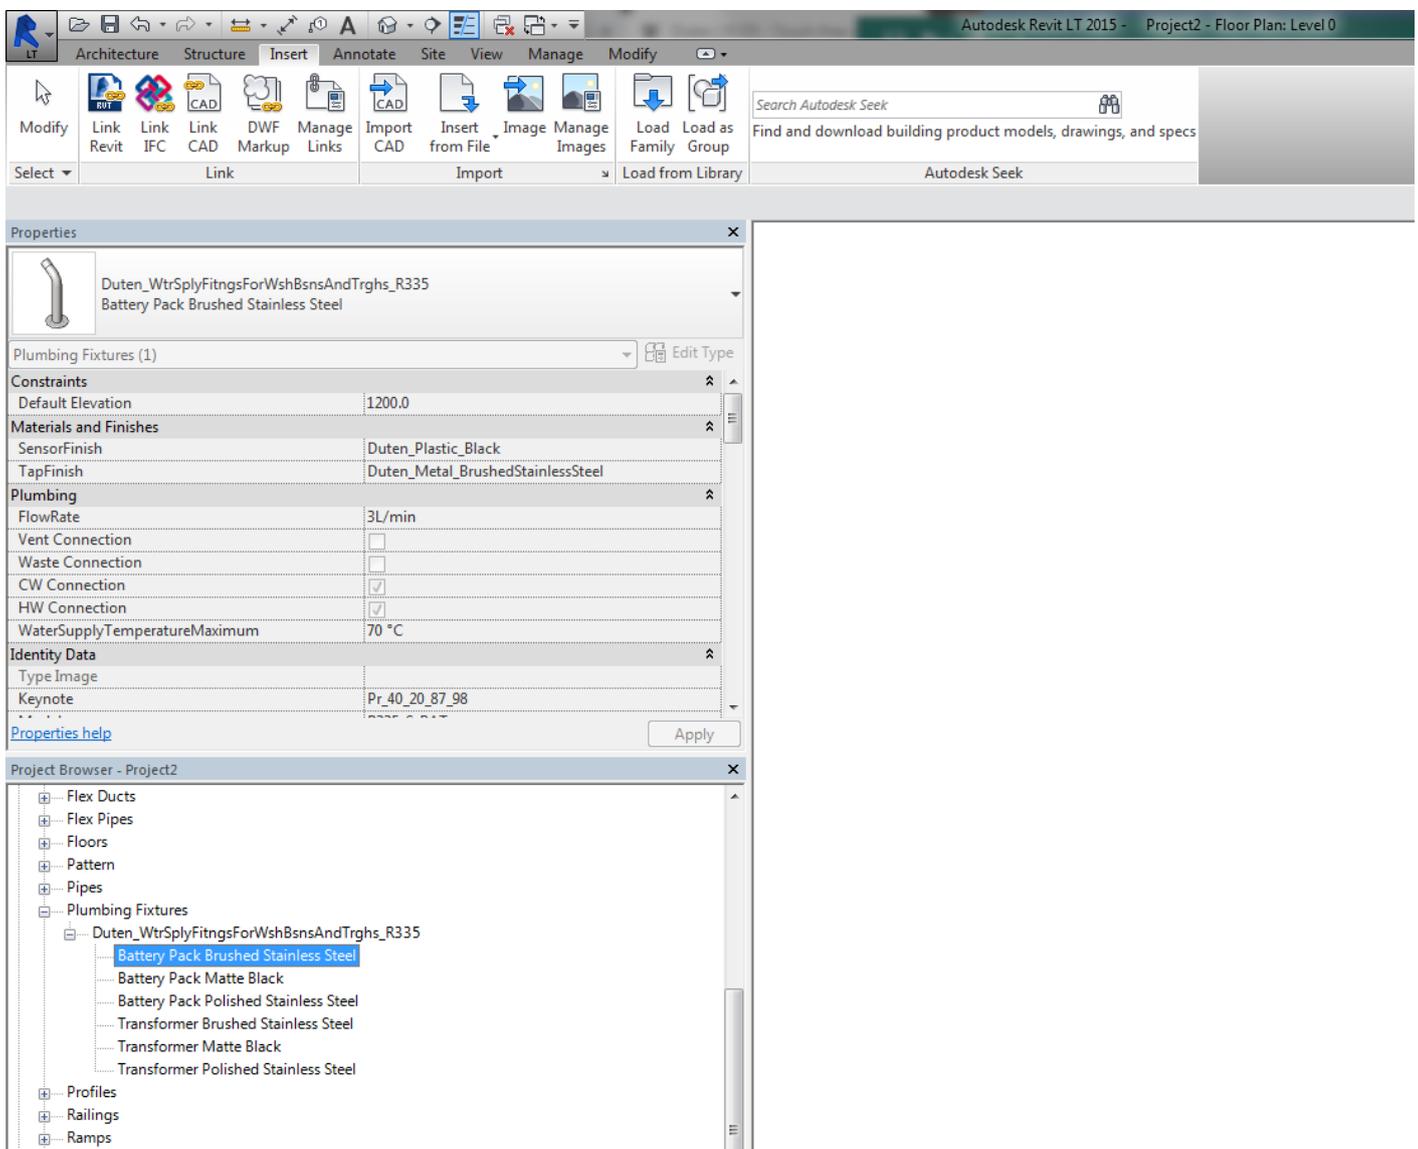

After downloading and saving the file to a suitable location go to 'Insert Tab/Load Family...'

A simple guide to using your Revit Ready file.

2. USE IT

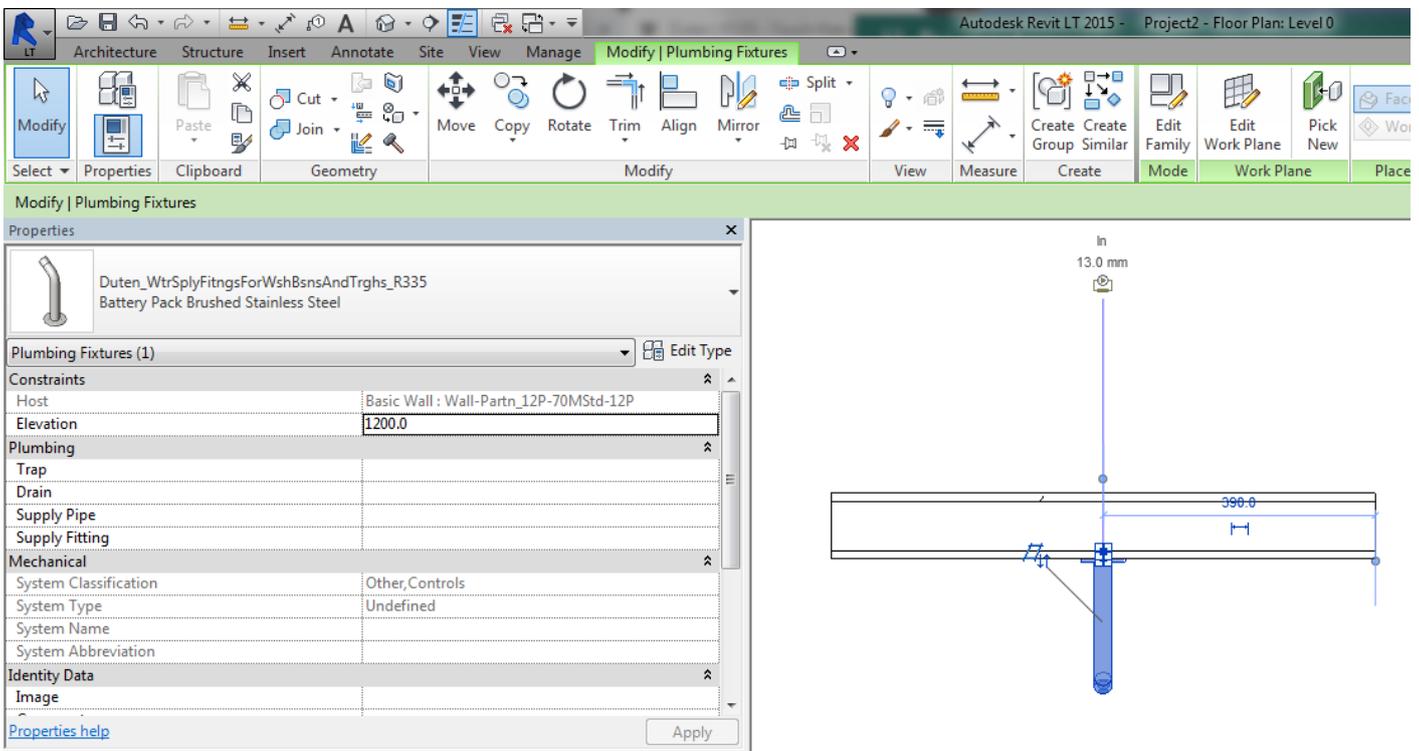

Once your family is loaded in, it will be located in the 'Project Browser/Families/Plumbing Fixtures tab. Types are named in a way to ensure ease of selection. Click and drag your chosen item onto a surface.

A simple guide to using your Revit Ready file.

3. CUSTOMISE IT

Once an item is selected it will turn blue, the properties panel will then display the parameters available. Here you will be able to make changes to the finishes. All material options will load in with the family, click the 'materials and finishes' parameter to view.

Additional information

This component has been created by Diane Butterworth Ltd following the manufacturer's specification.

We hope our Revit files are a helpful tool in space planning and visualisation. We take care in ensuring all dimensions and features match manufacturer's literature, however actual product may vary slightly.

We would love to hear from you if you have any questions or feedback, please email hello@dianebutterworth.com

Thank you for using this BIM file,
