

R300

Dual control flush plate

Dual-control flush plate in AISI316 stainless steel. Elegant and understated, this plate model is nonetheless very reliable and efficient. The buttons are intuitive and of different sizes to distinguish the available water volumes. Compatible with Geberit Sigma and Siamp Ingenio wall-mounted units thanks to the reversible frame allowing installation on both models. Clip-on stainless steel front for aesthetics without fixing.

Optional accessories

No optional accessories.

Maintenance

For optimum care of the flush plate, use a soft cotton cloth and dampen it if necessary. Never use products containing hydrochloric acid, formic acid, acetic acid or bleaching products containing chlorine. Never use abrasive products or tools (scouring liquid, scouring sponge, abrasive dishwashing sponge, stainless steel ball, etc.).
